# An acre and a cul-de-sac, *eight miles* from downtown.

That combination is what draws the footprint, and it draws it west rather than wide. Land of this size inside Davidson County is nearly always a long drive out; this one is 1.15 acres at the closed end of a West Meade street, eight miles from the downtown core. So the mail travels along the west-side corridor the buyer already knows — Hillwood, Charlotte Park, The Nations, Sylvan Park, Bellevue and Belle Meade — and stops at the county line.

| MARKET            | MILES | TIER |
|-------------------|-------|------|
| Hillwood          | 1.6   | 01   |
| Belle Meade       | 2.9   | 03   |
| Charlotte Park    | 3.2   | 02   |
| Bellevue          | 3.6   | 02   |
| Sylvan Park       | 4.8   | 02   |
| The Nations       | 4.8   | 02   |
| Richland-West End | 4.9   | 03   |
| Green Hills       | 5.3   | 04   |
| Forest Hills      | 5.8   | 04   |
| Oak Hill          | 7.3   | 04   |
| Downtown Core     | 8.2   | —    |
| Brentwood         | 8.9   | —    |
| Franklin          | 13.0  | —    |

STRAIGHT-LINE MILES,  
COMPUTED FROM  
COORDINATES.  
BRENTWOOD AND  
FRANKLIN SIT IN  
WILLIAMSON COUNTY  
AND ARE EXCLUDED.

● THE PROPERTY ● MAILING MARKET SHADED: DAVIDSON COUNTY

A precision list, not a volume play. Mail fewer, mail better, track response by market. Ten of the thirteen markets above are mailed, every one of them inside Davidson County — confirmed by resolving your coordinates against the federal county boundary, not by reading the postcode.

WHO THIS IS FOR

# Not a trophy. *A trade-up.*

At \$1,799,000 this is an established-neighbourhood family house, and the list has to be built that way. A luxury pull calibrated for seven-figure-plus trophy stock would return Belle Meade estates and Williamson County acreage — households who are already past this house, not moving into it. The buyer here is coming the other way: out of a smaller house on a smaller lot somewhere on the west side, into 1.15 acres, five bedrooms and a renovation that is already finished.

## A TROPHY-CALIBRATED PULL FINDS

Estate owners already on five acres

Williamson County new build at twice this price

Second-home and investor households

Buyers for whom 3,800 square feet is a downsize

Everyone except the household actually moving up

## THE SIGNALS WE RANK ON INSTEAD

Already owns on the west-side corridor

Long tenure in a house that has filled up

Owner-occupied single family, not investor-held

At the top of a smaller-lot neighbourhood

Income that clears the step, not the stratosphere

## WILLIAMSON COUNTY, HANDLED DELIBERATELY

Brentwood and Franklin are nine and thirteen miles out and are not in Davidson County at all — they are Williamson. They are also the single largest pool of households in Middle Tennessee at this price, which is exactly why they are left out rather than forgotten. A Brentwood household that wanted an acre already bought one, thirty minutes further from the city. This property's argument is the reverse: the land is here, on the west side, eight miles in. Mailing Williamson would put the list to work arguing against itself.

## WHAT THE LIST IS BEING ASKED TO RECOGNISE

MILES TO THE  
DOWNTOWN CORE

# Four tiers, *one drop*.

Each tier is asked to do one job, and only one. Tier 01 is asked to start conversations on your own street. Tier 02 carries the weight of the campaign — the west-side household in a smaller house who has been looking for land inside the county. Tier 03 is the lateral move at the same money. Tier 04 is the narrowest and most specific bet: households already at this price on a quarter acre, for whom the land is the entire upgrade.

| TIER | AUDIENCE               | WHAT IT IS ASKED TO DO                                    | PIECES |
|------|------------------------|-----------------------------------------------------------|--------|
| 01   | West Meade & Hillwood  | Referral. The neighbours who already know the street.     | 100    |
| 02   | The west-side trade-up | Purchase. Smaller house, smaller lot, ready to move up.   | 190    |
| 03   | The lateral west side  | Purchase. Peers at this price, moving across for privacy. | 140    |
| 04   | Land-short at price    | Purchase. At this money already, but on a quarter acre.   | 70     |

SHARE OF DELIVERY · 500 PIECES TOTAL

|    |                        |           |
|----|------------------------|-----------|
| 01 | <div><div></div></div> | 100 · 20% |
| 02 | <div><div></div></div> | 190 · 38% |
| 03 | <div><div></div></div> | 140 · 28% |
| 04 | <div><div></div></div> | 70 · 14%  |

WHY FIVE HUNDRED WORKS HERE, AND WHERE IT WAS CUT

Five hundred pieces in a single drop is the Aperture standard. At this price it is a workable number rather than a punishing one — but only because the geography is cut rather than thinned. Williamson County comes out whole. So does everything east of the river and everything south of Oak Hill. What is left is a six-zip west-side corridor where tenure, lot size and value bands can each do real work, and where 38 per cent of the delivery sits on the one audience most likely to move.

## QUALIFICATION

# Two bands, *derived from the price.*

Every threshold below is arithmetic on your asking price of \$1,799,000, rounded to a figure a list operator can actually key. Two bands cover the three purchase tiers, because the trade-up buyer and the lateral buyer are looking from different heights.

| LIST PRICE  | $\times 0.45 \rightarrow$ | $\times 1.10 \rightarrow$ | $\times 1.60 \rightarrow$ |
|-------------|---------------------------|---------------------------|---------------------------|
| \$1,799,000 | \$800,000                 | \$1,975,000               | \$2,875,000               |

### BAND A · TIER 02, THE TRADE-UP — $0.45\times$ TO $1.10\times$

### BAND B · TIERS 03 AND 04, LATERAL AND LAND-SHORT — $0.80\times$ TO $1.60\times$

The floor logic is where a trade-up listing parts company with a trophy one. On a seven-figure-plus trophy asset a  $0.6\times$  floor is still an exclusive number and screens to genuine peers. Apply  $0.6\times$  here and it lands at \$1,079,400 — which sits *above* the current home of the exact household this property is for, and quietly deletes the primary audience. So Band A drops to  $0.45\times$ . Its ceiling comes down too, to  $1.10\times$ : a household already in a \$2.5M house is not trading up into this one, and belongs in Band B or nowhere.

#### WHY BOTH BANDS ARE BRACKETED RATHER THAN FLOORED

An open threshold — every household at \$1,000,000 and above — looks generous and behaves badly. It returns the whole top of Middle Tennessee, most of which is already past a 3,800-square-foot house in West Meade and will never trade down into one. Bracketing at both ends is what keeps the list to households for whom this is a step up or a step across, and it is why the four caps can be met without widening the map.

#### APPLIED TO THE PURCHASE TIERS

Owner-occupied only. Single family and condominium only. Household income above \$200,000 on Tier 02 and above \$250,000 — the top band available — on Tiers 03 and 04. The top band alone is a trophy screen and would cut qualified trade-up households at this price.

#### LENGTH OF RESIDENCE

Seven years and over on Tier 02, five and over on Tier 03, eight and over on Tier 04. Tenure is the closest thing on a mailing list to a household having outgrown its house, and on this listing it does more work than income does.

# The pull, *as it will be run.*

Written for whoever sits down to execute it in Melissa. Selects are per tier; suppression, appends and ranking are common to all four. Six zip codes carry the whole footprint — 37205, 37209, 37221, 37212, 37215 and 37220 — each held to its Davidson County carrier routes.

| TIER | SELECT                                               | VALUE                                                                                                                                                                                                                                                                                                       |

## SUPPRESSION — APPLIED BEFORE ANY CAP

Suppress 805 Cammack Court and every adjoining parcel, so this household does not receive its own mailing — the subject property sits inside the Tier 01 radius by definition. Suppress the listing agent's own address. Suppress the Aperture Global office address. Then deduplicate the four tiers against one another, and only then apply the caps.

## WHERE THE TIERS OVERLAP

37205 appears in Tiers 01, 02 and 03. Where a household qualifies twice, the narrower tier takes the record and the wider tier gives it up. 37221 crosses the county line at its western edge — it is held to Davidson carrier routes only.

## THE RANKING IS THE DECISION

These pulls over-return heavily — one west-side zip will commonly hand back close to two thousand records against a target under two hundred. The thresholds define the pool; the sort selects the list, and it is not left to the operator.

## APPENDS ON EVERY RECORD

Occupation detail, property type, income rank, purchase amount range and length of residence, so response can be segmented rather than guessed at. A tier code is written at export; it is what makes per-market reporting possible.

# Mail fewer, *mail better.*

The strategy is settled: five hundred pieces, four tiers, one drop, weighted onto the west-side households most likely to trade up into an acre. What follows is the order of work, and the one item that is a matter of scheduling rather than judgement.

---

## THE FOOTPRINT

Set. Four tiers, weighted 100 / 190 / 140 / 70, with 38 per cent of the delivery on the trade-up audience. Six zips, all held to Davidson County carrier routes. Williamson County, the east side and everything beyond eight miles are excluded.

---

## THE BANDS

Set. Derived from \$1,799,000 — Band A at 0.45× to 1.10×, \$800,000 to \$1,975,000; Band B at 0.80× to 1.60×, \$1,450,000 to \$2,875,000. If the price moves, the bands are re-derived from the new figure rather than rescaled.

---

## THE LIST

Pulled to the specification on the previous page. Suppressed against 805 Cammack Court and every adjoining parcel, and against the agent and office addresses; deduplicated across all four tiers; then capped by ranking, not by widening. Tier codes travel with the export so response is read market by market.

---

## THE PIECE

A 6 × 9 in card. What sells this house is the land and the finish — the park-like lot at the closed end of the street, the screened porch, and the 2022 kitchen with its oversized island. That wants one wide exterior and a tight interior set, not a gallery. You will see the artwork and approve it before it runs.

---

## THE DROP DATE

Open only because it is scheduling. Fixed against print and list lead times, and confirmed to you once the pull returns.
