

806 WILLOWDALE COURT · DIRECT MAIL DISTRIBUTION STRATEGY

Five hundred
households who read a
lot size, *not a list price.*

PROPERTY

806 Willowdale Ct, Nashville, Tennessee 37220 · Oak Hill, Russellwood Heights

PREPARED FOR

Alex Brandau IV · Aperture Global Real Estate

CHANNEL

Direct Mail · 500 pieces, single drop

PACKAGE

Opal

Two acres, and still *inside the city*.

Land at this scale almost always means crossing into Williamson County and accepting a homeowners association with it. Your house does neither. One point nine seven level acres, no association, seven miles from the downtown core, and every foot of it inside Davidson County. That fact sets the boundary of the mailing before any filter is written: the footprint is drawn on the Davidson side of the line, across the established south and west neighbourhoods where the comparable houses actually sit.

Brentwood is closer than downtown and is still not mailed. Williamson County is where association-governed large-lot product lives — it is the alternative this buyer is declining, not the pool they arrive from. A precision list, not a volume play. Mail fewer, mail better, track response by market.

Lot size sorts this list *better than price does.*

Two and a third million buys a great many houses in Davidson County. It buys very few that come with two level acres, a gunite pool, brick terraces, a pool house and no association to answer to. A list sorted on assessed value alone is therefore sorted on the wrong axis: it finds households who can afford the house without telling us whether they want what the house is. Land is the variable, and the mailing runs down two paths because of it.

PATH ONE

They already hold land *and*
will not give it up.

Owners on three quarters of an acre and up, across Forest Hills, Oak Hill, Green Hills, Belle Meade, Hillwood and West Meade

They read acreage correctly on sight, because they live on it already

Moving means matching the land, not just the house — which is exactly the short list this property sits on

A level lot with an existing pool and terraces removes the work they know they would otherwise take on

PATH TWO

They have the house *and none*
of the ground.

Owners on a third of an acre or less in 12South, Belmont-Hillsboro, Berry Hill, Sylvan Park and East Nashville

They have already bought at this price point, on a lot a fraction of this size

The upgrade they cannot buy in place is ground — and leaving the county is the usual price of getting it

Seven miles to the core keeps the commute and the schools they moved for intact

BOTH PATHS CONVERGE

The two paths are screened on opposite sides of the same measurement. Path one qualifies on a large lot, path two on a small one, and nothing else in the stack changes. That single inversion is what lets five hundred pieces cover both the households who understand the asset and the households shopping for exactly what it offers.

A third audience is mailed on neither test. The immediate neighbourhood receives the card unscreened, because its job is referral rather than purchase, and a value filter only removes the neighbours who talk.

Five hundred pieces, *four jobs*.

The drop is one mailing, weighted across four tiers. Weighting is a decision, made here and made on purpose: the two qualifying paths carry the majority of the delivery between them, the neighbourhood tier is kept deliberately small because it is a referral instrument, and a fourth tier reaches south-side households who already own ground and would be stepping up rather than across.

TIER	AUDIENCE	SHARE OF DELIVERY	PIECES
01	The Neighbourhood		110
02	The Acreage Belt		165
03	The Small-Lot Trade-Up		165
04	The South-Side Step-Up		60
Total, single drop			500

THE FOOTPRINT, ZIP BY ZIP

ZIP	PRINCIPAL NEIGHBOURHOODS	TIER	ZIP	PRINCIPAL NEIGHBOURHOODS	TIER
37220	Oak Hill, Crieve Hall	01 · 02	37212	Belmont - Hillsboro, Hillsboro Village	03
37215	Green Hills, Forest Hills	02	37209	Sylvan Park, The Nations	03
37205	Belle Meade, Hillwood, West Meade	02	37206	East Nashville, Lockeland Springs	03
37204	12South, Berry Hill, Melrose	03	37211	Crieve Hall south, Woodbine	04

ZIP 37220 CARRIES TWO TIERS. THE FOUR LISTS ARE DEDUPPLICATED AGAINST ONE ANOTHER BEFORE THE DROP, SO NO HOUSEHOLD RECEIVES TWO CARDS AND THE NEIGHBOURHOOD TIER TAKES PRECEDENCE INSIDE ITS RADIUS.

Bar widths show the share of the five hundred pieces assigned to each tier. They are an allocation, not a measured count of available households — no household figures are claimed anywhere in this document.

Banded on the asking price, *bracketed on the land.*

Every threshold below is arithmetic on two published figures and nothing else: the asking price of two million three hundred thousand dollars, and the lot at one point nine seven acres. An open floor — anything above a million, anything above an acre — drags in estates far above this house that will never trade down into it. So both screens are bracketed at each end.

VALUE, FROM THE ASKING PRICE		LAND, FROM THE LOT	
Anchor — list price	\$2,300,000	Anchor — subject lot	1.97 acres
0.6× anchor	\$1,380,000	Tier 02 floor — 0.38×	0.75 acre and above
1.6× anchor	\$3,680,000	Tier 03 ceiling — 0.18×	0.35 acre and below
Core band, rounded	\$1,400,000 – \$3,700,000	Tier 04 floor — 0.25×	0.50 acre and above
0.45× and 0.9× anchor	\$1,035,000 – \$2,070,000	Three quarters of an acre is the point at which a Davidson County household is buying ground rather than a garden, so it reads two acres as more of what it already has. A third of an acre is small enough that the gap is the whole proposition. Between the two sits a middle that responds to neither argument, and five hundred pieces cannot carry it.	
Step-up band, rounded	\$1,000,000 – \$2,100,000		
TIER 01 CARRIES NO VALUE SCREEN AT ALL. TIERS 02 AND 03 USE THE CORE BAND; TIER 04 USES THE STEP-UP BAND.			

Household income is set above two hundred and fifty thousand dollars across every filtered tier — the top band the data provider offers — with property type limited to single family and condominium and residence restricted to owner-occupied throughout. If the asking price moves, these bands are re-derived from the new figure rather than rescaled.

A precision list, not a volume play. Mail fewer, mail better, track response by market.

The pull, *as it will be run.*

Written so it can be executed against the Melissa Data consumer file without interpretation.
Every tier pulls wide and is then ranked and cut — the ranking is the selection decision, not the thresholds, because a pull of this shape over-returns heavily against a target of a few hundred.

TIER 01 — THE NEIGHBOURHOOD · 110

Geography: radius **1.5 miles** from 806 Willowdale Ct.
Owner-occupied: **yes**. Property type: **single family**.
Value screen: **none**. Income screen: **none**.
Rank: **length of residence, descending**. Cap 110.

TIER 02 — THE ACREAGE BELT · 165

Zips: **37220, 37215, 37205**.
Lot size: **0.75 acre and above**.
Estimated home value: **\$1,400,000 – \$3,700,000**.
Household income: **\$250,000+**. Owner-occupied: **yes**.
Property type: **single family**. Length of residence: **5 years+**.
Rank: **length of residence, then home value, descending**. Cap 165.

TIER 03 — THE SMALL-LOT TRADE-UP · 165

Zips: **37204, 37212, 37209, 37206**.
Lot size: **0.35 acre and below**.
Estimated home value: **\$1,400,000 – \$3,700,000**.
Household income: **\$250,000+**. Owner-occupied: **yes**.
Property type: **single family, condominium**. Length of residence: **4 years+**.
Rank: **length of residence, then home value, descending**. Cap 165.

TIER 04 — THE SOUTH-SIDE STEP-UP · 60

Zips: **37211, 37220** — south of Harding Place only.
Lot size: **0.50 acre and above**.
Estimated home value: **\$1,000,000 – \$2,100,000**.
Household income: **\$250,000+**. Owner-occupied: **yes**.
Property type: **single family**. Length of residence: **7 years+**.
Rank: **length of residence, then home value, descending**. Cap 60.

SUPPRESSION — APPLIED TO EVERY TIER

Suppress **806 Willowdale Ct** and every adjoining parcel; the listing agent's own residential address; the Aperture Global office address; and all records flagged **vacant, deceased** or **undeliverable**. Without this the seller receives their own postcard — the subject property sits inside the tier 01 radius by definition.

DEDUPLICATION & GEOGRAPHIC EXCLUSION

The four lists are **deduplicated against one another** in tier order, 01 first, so a household appearing in two tiers is mailed once. Zip 37220 spans tiers 01, 02 and 04 and is the principal overlap. All **Williamson County** records are excluded, including any 37027 record that surfaces through a radius pull.

APPENDED FOR SEGMENTATION

Occupation detail · property type · lot size · income rank · purchase amount range · length of residence. Appended on every record so response can be segmented by tier and by market after the drop rather than reported as a single undifferentiated figure.

Pulls at this specification over-return by a wide margin, which is the intended behaviour.
The cap does the final work, and the ranking decides which households survive it.

Mail fewer, *mail better.*

The footprint, the tiering and the filters above are set. What follows is sequence — the order in which the drop is executed inside the campaign window, and the two figures that are genuinely not yet fixed.

-
- | | |
|----|---|
| 01 | The four tier pulls are run to the specification on the previous page, ranked, capped and deduplicated in tier order. |
|----|---|
-
- | | |
|----|--|
| 02 | Suppression is applied last and checked by hand against the subject address and its adjoining parcels before the file is released. |
|----|--|
-
- | | |
|----|--|
| 03 | Card artwork is produced from the property photography and sent to you for approval. Nothing goes to print until you have seen it. |
|----|--|
-
- | | |
|----|--|
| 04 | The single drop is scheduled inside the thirty-day campaign window, set against print and list lead times. |
|----|--|
-
- | | |
|----|---|
| 05 | Response is logged against the appended tier and market fields, so enquiry can be read back to the neighbourhoods that produced it. |
|----|---|

PENDING, AND DELIBERATELY UNSTATED

DROP DATE	To be confirmed — set against print and list lead times inside the campaign window.
HOUSEHOLD COUNTS	Not stated. Available counts per tier are known only once the pulls are run; no figure is estimated here.
RESPONSE	Nothing measured. The campaign has not begun.

County confirmed as Davidson from the property's own coordinates by point-in-polygon against the federal county boundary — not from its postcode, and not from proximity to Brentwood.
