

2961 LAKEVIEW DRIVE · DIGITAL BILLBOARD STRATEGY

A house on the ridge, shown *where* *its buyer already* *drives.*

PROPERTY	2961 Lakeview Drive, Sebring, Florida 33870
PREPARED FOR	Cynde Velez · Aperture Global Real Estate
PACKAGE	Diamond Black
CAMPAIGN WINDOW	21 September – 21 October 2026
STATUS	Plan for approval — before the campaign goes live

One television market, *ten counties wide*.

2961 Lakeview Drive stands in Highlands County, on the Lake Wales Ridge at the centre of the Florida peninsula. For every kind of advertising that is bought by market rather than by address, that places the house in the Tampa–St. Petersburg (Sarasota) market — the eleventh largest in the country, and ten counties across. Highlands is one of those ten. The other nine are drawn darker on the map opposite, and they are where the roadside screens belong: Hillsborough, Pinellas, Polk, Pasco, Hernando, Citrus, Manatee, Sarasota and Hardee.

The paler counties are the second ring — Orlando and its suburbs, the ridge and lake country to the north, and the interior south. They matter because none of them is far from this dock, but they sit outside the market this campaign is bought in, and they are reached by the online advertising instead.

COUNTY	RING
Highlands	01
Polk	02
Hardee	02
Hillsborough	02
Pinellas	02
Pasco	02
Hernando	02
Citrus	02
Manatee	02
Sarasota	02
Orange	03
Osceola	03
Seminole	03
Lake	03
Sumter	03
Marion	03
DeSoto	03

RING 01 THE RESIDENCE · 02 THE TAMPA MARKET · 03 ADJACENT

Highlands County and the Tampa market membership were checked against the federal county record for the coordinates on the listing, not inferred from the postcode.

The road is the only place *this house is unavoidable*.

A ten-thousand-square-foot estate on two hundred and fifty feet of Lake Jackson is not a house people search for. Nobody types 'Sebring' into a property portal hoping for this. The buyer is somewhere on the Gulf coast or in the Orlando suburbs, is not looking inland, and has to be told that fresh water at this scale exists less than seventy miles inland. Print and portals wait to be opened. A screen over a commuter road does not wait.

01

REACH THE MARKET, NOT JUST THE POSTCODE

The targeting favours the parts of the market that send people inland towards the ridge, rather than only the area immediately around the house. Sebring itself is covered, but the people already in Sebring are mainly the direct mail campaign's job.

02

ONE IDEA PER SCREEN

A driver has a few seconds. Each frame carries the water, the price, the address and nothing else. No feature lists, no agent portrait, no logos competing with the house.

03

RUN WITH THE REST OF THE CAMPAIGN

The same month carries five hundred cards into central and coastal Florida and six advertisement sizes online. The screens are the layer that makes the other two feel familiar rather than cold.

04

ONE ADDRESS, EVERYWHERE

Every screen ends at the same short web address as the cards and the advertisements, so that a glance from a car can be recovered from a phone that evening.

Chosen by area, *not by billboard.*

It is worth being clear about how these screens are bought, because it is not how billboards used to work. We do not rent one particular sign on one particular road for a month. We buy digital screens programmatically — we tell the exchange which parts of the market to serve the house into, and it places the advertisement on whatever digital screens are available in those areas while the campaign runs. So there is no list of board addresses in this document, and there will not be one. What we choose, and what this document sets out, is the geography.

In practice that means roadside and public digital screens across the ten counties on the previous page, weighted towards the five areas below.

AREA	TARGETED GEOGRAPHY	WHY IT IS INCLUDED
01	Polk County · Lakeland and Winter Haven HIGHEST PRIORITY	The lake country immediately north of the ridge, and the closest large concentration of households at this price. Sixty-eight miles of the drive from Tampa passes through it.
02	Highlands County · Sebring and the ridge HIGHEST PRIORITY	The area the house is actually in. Screens serving here reach the people most likely to know Lake Jackson by name and to mention the house to someone who wants it.
03	Hillsborough and Pinellas · Tampa and St. Petersburg HIGH PRIORITY	The largest concentration of wealth in the market. Targeting here is about the price looking credible in the market's biggest city, not about proximity.
04	Sarasota and Manatee HIGH PRIORITY	Coastal owners who already pay a premium for water. This house offers a great deal more of it, inland and away from the salt.
05	Pasco · Hernando · Citrus · Hardee STEADY PRESENCE	The rest of the market. Included at a lower share of delivery so that the whole ten-county footprint is covered for the full thirty days rather than in bursts.

WHERE THE EMPHASIS SITS

Areas 01 and 02 take the largest share of delivery, because they are where a buyer for a lake estate on the ridge is most likely to already be. Tampa, St. Petersburg and the Sarasota coast take the next largest share, for reach and for standing. The remaining counties run at a lower, steady share so that nowhere in the market is dark.

We would rather run everywhere in the market for the full thirty days at a measured weight than crowd two weeks and then disappear. A roadside frame does its work by being there again on Thursday.

One consequence of buying this way is worth saying plainly: we cannot promise you a photograph of your house on a named sign at a named junction. What we can say is which parts of Florida saw it, and how often, once the month is over.

THE FRAME EVERY SCREEN IS BUILT AROUND

The month ahead, *in order.*

The market, the targeted areas and the emphasis are settled — that is the work in the pages before this one, and it is the judgement you are paying us for. What remains is the sequence, and two figures that do not exist yet. Where a number is missing below it is missing on purpose: an estimate offered now would be a guess wearing a suit, and this house is not marketed on guesses.

NOW	The advertisement is built from the photography of the house and the lake frontage, in the Aperture setting used on the cards and online. You will see it and approve it before a single screen carries it.
21 SEPTEMBER	The campaign goes live across the ten counties of the Tampa–St. Petersburg (Sarasota) market, weighted into the five areas set out on the previous page.
THROUGH THE MONTH	Steady delivery for the full thirty days rather than two crowded weeks. Polk and Highlands carry the largest share throughout, Tampa, St. Petersburg and the Sarasota coast the next, and no part of the market goes dark.
21 OCTOBER	The campaign closes. A report follows, covering where in Florida the house was shown and for how long, with whatever the exchange and its operators are able to verify.
IMPRESSIONS	A delivery figure we do not have yet. We will state one only when an operator has committed to it in writing, and it will then be the number we are answerable for. Nothing estimated appears in this document.
PERFORMANCE	Nothing has been measured, because nothing has run. Every figure of that kind belongs to the report after the window, not to this document.
INDIVIDUAL SCREENS	Not applicable, now or later. Screens are served programmatically across the targeted areas; no single board is picked out.
SCREEN COUNT	Not applicable for the same reason. The number of screens carrying the house varies day to day with what the exchange has available in the targeted areas.

THE RESIDENCE, ONLINE

apertureglobal.com/2961lakeviewdrive

Where every screen resolves.

THE REST OF THE CAMPAIGN

Five hundred cards into central and coastal Florida, and six advertisement sizes online, in the same thirty days.
