2961 LAKEVIEW DRIVE · DIRECT MAIL DISTRIBUTION STRATEGY

# A precision list for a house at the centre of *the state.*

PROPERTY

2961 Lakeview Drive, Sebring, Florida 33870

PREPARED FOR

Cynde Velez · Aperture Global Real Estate

PACKAGE

Diamond Black

CAMPAIGN WINDOW

21 September – 21 October 2026

APERTUREGLOBAL.COM

# Every coast within *a hundred miles*.

2961 Lakeview Drive sits almost exactly at the centre of the Florida peninsula. From the dock, the Gulf is sixty-six miles west and the Atlantic sixty-six miles east; Tampa, Orlando, Sarasota, Fort Myers and Melbourne all fall inside seventy-six. That single fact sets the footprint. The buyer for a ten-thousand-square-foot lake estate in Highlands County is very likely already a Floridian — someone who knows the ridge, keeps a boat, and can be standing on this dock inside two hours of leaving home. So the mail goes to Florida addresses, ranked by proximity and capacity. The northern feeder cities are the digital campaign's job; mail is delivered where people actually receive it.

| MARKET         | MILES | TIER |
|----------------|-------|------|
| Avon Park      | 7     | 02   |
| Lake Placid    | 16    | 02   |
| Lake Wales     | 28    | 02   |
| Winter Haven   | 39    | 03   |
| Lakeland       | 47    | 03   |
| Vero Beach     | 66    | 04   |
| Sarasota       | 66    | 03   |
| Tampa          | 69    | 03   |
| Longboat Key   | 73    | 03   |
| Orlando        | 72    | 03   |
| Winter Park    | 76    | 03   |
| Stuart         | 77    | 04   |
| Jupiter Island | 89    | 04   |

STRAIGHT-LINE MILES FROM THE RESIDENCE

A precision list, not a volume play. Mail fewer, mail better, track response by market.

# Four audiences, *one drop.*

The four tiers are not four sizes of the same list. Two of them are asked to produce a buyer. The other two are asked to produce a conversation — the neighbour who mentions it at the club, the Sebring family whose cousin in Tampa has been looking for water. They are filtered differently because they are doing different work, and they are reported separately so that the difference is visible afterwards.

| TIER | AUDIENCE                     | WHAT IT IS ASKED TO DO                                  | PIECES |
|------|------------------------------|---------------------------------------------------------|--------|
| 01   | Lake Jackson shoreline       | Referral. The neighbours who talk about the lake.       | 150    |
| 02   | Highlands County & the ridge | Standing. Local principals, growers and professionals.  | 110    |
| 03   | Central & Gulf luxury belt   | Purchase. Peers at this price, inside a two-hour drive. | 180    |
| 04   | Atlantic & Treasure Coast    | Purchase. Coastal owners trading salt for fresh water.  | 60     |

ALLOCATION · 500 PIECES TOTAL

|    |                        |     |
|----|------------------------|-----|
| 01 | <div><div></div></div> | 150 |
| 02 | <div><div></div></div> | 110 |
| 03 | <div><div></div></div> | 180 |
| 04 | <div><div></div></div> | 60  |

WHY FIVE HUNDRED, AND WHERE IT WAS CUT

Five hundred pieces in a single drop is the Aperture standard, and five hundred at this price point only works if the geography is cut rather than thinned. So Naples, Palm Beach and Boca Raton come out altogether — each over ninety miles out, each priced above this house — and the pieces go instead into the shoreline and the ridge, where the referral argument is strongest, and into a short list of comparably priced households inside a two-hour drive. The count and the split are both set.

# The footprint, *zip by zip*.

Written out so that it can be executed. Each tier is a separate pull with its own screen; all four are then deduplicated against one another before any cap is applied, so no household receives two pieces and no zip is counted twice. Where a zip appears in more than one tier — Sebring sits in both the shoreline radius and the county tier, Lake Wales in both the county and the Lakeland cluster — the narrower tier takes the record.

TIER 01 IS THE SHORELINE IN THIS FRAME

## 01

### LAKE JACKSON SHORELINE

A 1.5-mile radius of 27.506872, -81.465173, plus the Sebring carrier routes fronting Lake Jackson and Little Lake Jackson — 33870, 33875

Owner-occupied only. No value screen, no income screen: a value screen here would remove exactly the neighbours who talk.

## 02

### HIGHLANDS COUNTY & THE RIDGE

Sebring 33870, 33872, 33875, 33876 · Avon Park 33825 · Lake Placid 33852, 33862 · Lake Wales 33898, 33853

Qualified on occupation rather than home value. Highlands County wealth is agricultural and professional, not residential — a citrus or cattle principal here may own a house assessed at a fifth of this one.

## 03

### CENTRAL & GULF LUXURY BELT

Winter Park 32789 · Windermere 34786 · Orlando 32836 · Lakeland 33813, 33803 · Winter Haven 33884 · Tampa 33629, 33606 · Sarasota 34236, 34242 · Longboat Key 34228

Banded on estimated home value around the list price. Owner-occupied, single family and condominium, five years and over in residence.

## 04

### ATLANTIC & TREASURE COAST

Vero Beach 32963 · Stuart and Sewall's Point 34996 · Hobe Sound and Jupiter Island 33455

The same screen as Tier 03, held to the three nearest Treasure Coast markets. Barrier-island owners already pay for water; this house offers more of it, further from the hurricane coast, at a fraction of the frontage price.

## QUALIFICATION

# What puts a household *on the list*.

### WHAT WE SCREEN FOR

Estimated home value, banded — not floored

Household income above \$250,000

Owner-occupied, and only owner-occupied

Single family and condominium only

Length of residence, five years and over

Verified occupation, for the two Highlands tiers

### WHAT WE DELIBERATELY LEAVE OPEN

No value screen inside the shoreline tier

No open-ended \$1M+ floor anywhere

No age or household-composition screen

No renters and no absentee investors

No home-value screen in Highlands County

No out-of-state addresses in this channel

### THE VALUE BAND

The band runs from roughly six tenths to one and six tenths of the asking price. An open threshold of a million dollars and above would look generous and behave badly: it pulls in every coastal estate far above this one, households that will never trade down into a Highlands County address. Bracketing the price keeps the list to people for whom this is a lateral move or a modest step up — and it is the single change that most improves response on a mailing this small.

# The pull, *as it will be run.*

Written for whoever sits down at Melissa Data to execute it. Selects are per tier; appends and the ranking rule are common to all four.

| TIER | SELECT                                               | VALUE                                                                                                                                                                                                                                                                                                     |

## APPENDS ON EVERY RECORD

Occupation detail, property type, income rank, purchase amount range and length of residence, so response can be segmented after the fact rather than guessed at. Add a tier code at export; it is what makes per-market reporting possible at all.

## THE RANKING IS THE DECISION

These pulls over-return heavily: one affluent Florida zip will commonly hand back two thousand records against a target of a hundred and fifty. The thresholds define the pool; the sort selects the list. It is specified above and should not be left to the operator.

# Mail fewer, *mail better.*

The strategy is settled: five hundred pieces, four tiers, the zip lists on page 04 and the screens and ranking on page 06. What follows is execution, in this order. One item is genuinely outstanding, and it is a scheduling matter rather than a question of approach.

---

## THE FOOTPRINT

Four tiers across central and coastal Florida, chosen on drive time and on comparable value. Naples, Palm Beach and Boca Raton are left out deliberately.

---

## THE LIST

Pulled tier by tier to the specification on page 06, deduplicated across the four tiers, ranked and capped at 500.

---

## THE PIECE

A 6 × 10.5 in oversized card, double sided. Chosen because it is read without being opened, and because the photograph carries the house at that size.

---

## THE DROP DATE

Still to be set, against print and list lead times, inside the campaign window. A single drop.
